EVENT REPORT

NAME OF THE EVENT	Carl Neuberg Birthday Celebrations
TYPE OF EVENT	College level
FACULTY INCHARGE	G Sunitha
DEPARTMENT	Biochemistry
DATE	29 th July 2019
VENUE	Aurora's Auditorium, Main block
TARGET AUDIENCE	B Sc Life Science students

OBJECTIVE:

- To motivate the students of Life Sciences to understand the importance of Biochemistry
- To make students understand the contributions made by Neuberg
- To inculcate experimental and creative research skills among students

BRIEF ABOUT THE EVENT:

The event started 10.30AM with brief introduction about the Carl Neuberg. As part of the celebrations competitions like scientific writing and scientific darting were conducted. About 54 students from various life science stream participated in the event. There were about 44 participants for scientific writing and 10 participants for scientific darting.

OUTCOME:

The event was successful with the participation of students and faculty and had succeeded in creating awareness among young generation about research.

Detail Report

The Birthday of Carl Neuberg is celebrated on 29th July 2019, by the Department of Biochemistry.

About the Carl Neuberg

Carl Alexander Neuberg (1877–1956) was an early pioneer in Biochemistry and he is often referred to as the "Father of Modern Biochemistry". His notable contribution to science includes the discovery of the carboxylase and the elucidation of alcoholic fermentation which he showed to be a process of successive enzymatic steps, an understanding that became crucial as to how metabolic pathways would be investigated by later researchers. Today people are able to reading biochemistry because of his contributions and therefore, a biochemist should show the gratitude to him.
