## **DETAILED REPORT:**

CORONA VIRUS lockdown has restricted organizations and educators to make the anniversary, without leaving the comfort of our homes. Biodiesel Day, which is celebrated annually on March 18, is usually commemorated with indoor activities like giving awareness to use biofuels, demonstrating support for environmental protection. The captain gathered the students for the celebrations following all the instructions given by me and explained the importance of Biodiesel Day. Students from MiBiC 3 had participated online in Google classroom by presenting PPT's on 'Biodiesel Day 2020', thus making the special day as "Digital Biodiesel Day". Students got to know the importance of environment and health. I appreciate all the participants for their wonderful job despite all the odds. As a section in-charge I congratulate B. Tharunika for presenting the best PPT.
